Your professional network cabinet supplier

About 750mm Width Standing Network Cabinet

We are the value added supplier which specializing in the field of network cabinet.

We have been in network cabinet industry for decades.

According to our years of knowledge of network cabinets, our professional engineer designed this special model for Israeli market. It is designed with ease of use and more user friendly.

This model became a best seller as soon as it was launched.

1000kgs
Static Loading

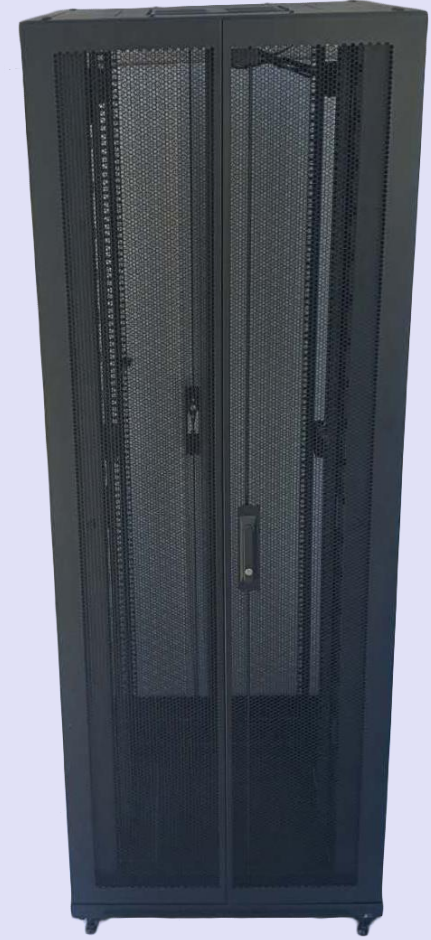

-  Front and rear door are perforated(single door and double section door are both available). Side doors are with louver openings. So it allows the ventilation and visibility of the cabinet. Casters and supporting legs could be used at the same time. There are easy-to-read (U) markings in every vertical mounting rail.
-  Static Loading: 1000kgs
-  This model is with wider cable entries on the top and bottom panels. So it's more convenient for cabling. Side panels are removable; there are latch lock inside the panels to make sure its safety
-  Each rack is with 2 pcs vertical cable management slot in the front. The cable management slots are with special key-less lock. It's easier to open and close.
-  Additional Accessories:
 - 100 *M6 screws and nuts
 - 1*grounding cable
 - 4*fans
 - 2*cable management slot
 - 2*PDU mounting parts
